Her Majesty the Queen
Buckingham Palace
London SW1A 1AA

Madam,

We are glad to write to Her Majesty today! We are French students of Pablo Neruda High-School in the city of Dieppe which is in Normandy. This High-School gathers students who are mostly interested in technology programs. All of us are in 2^{ème} 4 (year 10). We are between 15 and 16 years old and our group is composed of 32 students.

Dieppe is a nice city situated next to the sea. The ferry boat connects Dieppe to Newhaven by the Channel. We can admire high cliffs and pebble beaches and even more breath-taking landscapes. You can also visit one of the most amazing markets of France. The astronaut Thomas Pesquet studied in Dieppe and we are so proud of him.

For a few classes, we have worked on the British Royal family. We watched a video of Her Majesty's coronation in 1953, how crowded London was! Then, we studied the Royal family tree. It was quite impressive to see how many Kings and Queens have ruled over Britain!

Her Majesty has experienced so many events: different wars, conflicts, pandemics... We know for instance that Your Royal Highness has played a role in the Second World War effort. Being at the head of the Commonwealth must be a tough responsibility and we find it really admirable!

It is the first time a monarch reaches such a long reign. Consequently, the whole group wishes to congratulate Her Majesty for her Platinum Jubilee!

We would be deeply honoured to receive an answer from Buckingham Palace, even if we are aware that Her Majesty might be very busy.

We have the honour to be, Madam, Your Majesty's humble and obedient servants.

Mrs Annette
